

CIRCUIT

DESIGN JOHAN LINDSTÉN

Circuit – like an infinite natural cycle

As the name suggests, CIRCUIT in all its many versions is an endless continuity that is limitless in terms of configurations and combinations. In the words of designer Johan Lindstén himself the various elements are “designed to create a cyclical form, a natural cycle, an infinite continuum.”

The only limits to creativity are those set by your own imagination. Create a discreet and sober look that complements the overall expression in a room by melting seamlessly into the setting. Or why not open eyes and minds with a cavalcade of CIRCUIT sound absorbers that shout out their presence in the dramatic contrasts of a dynamic colour palette? Both options are equally simple to achieve.

DECIBEL
